## SUMMARY

I am a motivated front-end developer seeking to enhance my skills in crafting efficient and maintainable code while actively solving problems. I have experience writing ReactJS, I utilize modern coding practices to create exceptional user interfaces. My expertise of core technologies such as HTML5, CSS3 and JavaScript is consistently reflected in my work. Furthermore, I possess extensive experience with Git, GitHub and Slack enabling seamless collaboration and effective project management with teams. With a keen eye for crafting visually appealing UI designs, I am committed to expanding my expertise in various web technologies. I aim to cultivate a versatile and promising skill-set, enabling me to excel in independent projects and thrive in collaborative team environments.

## SKILLS & TOOLS

- |                         |                                       |
|-------------------------|---------------------------------------|
| • Web Development:      | HTML5, CSS3, JavaScript               |
| • Styling:              | SASS, Bootstrap, Tailwind CSS         |
| • Web Technology Stack: | Frontend: ReactJS, NextJS             |
| • Version Control:      | Git                                   |
| • Others:               | Effective communication and Team Work |

## EXPERIENCE

### FRONT-END DEVELOPER, SCRIMBA

AUG. 2022 - JAN. 2023

- Developed responsive web applications using modern frontend technologies such as flexbox, grid, and media queries ensuring cross-browser compatibility and web performance optimization.
- Implemented advanced React techniques, including state management and routing, through the Advanced React course, gaining proficiency in JavaScript frameworks and frontend build tools.
- Collaborated effectively in a team environment, utilizing strong communication skills to facilitate efficient development process

### FRONT-END DEVELOPER, FREECODECAMP

MAR. 2023 – MAY 2023

- Participated in code reviews, providing valuable feedback on peer's project, while utilizing version to for collaborative development.
- Leveraged debugging and troubleshooting skills to resolve frontend issues and ensure the smooth functioning of the web applications.
